Tension tester UT15C

ARTÍCULO

DESCRIPCIÓN

12V AC / DC voltage tester up to 690V, continuity detector with acoustic warning and LED, positive and negative polarity detector. 50HZ-60Hz phases rotation test. Voting indicator on the screen as in sequence of LEDs (7 levels). According to the EN61010-1 standards, at 61010-2-30, EN 61243-3, EN 61326-1. Double safety insulation according to IEC536 Class 11. Safety insulation Cat IV 600V.

DATOS TÉCNICOS	
AC/DC voltage levels by Led	12V: Between 0-12V the LED lights // 24V: Between 19V 2V the LED lights // 50V: Between 48V 6V the LED lights // 120V: Between 110V 20V the LED lights // 230V: Between 200V 20V the LED lights // 400V: Between 340V 30V the LED lights // 690V: Enter
Range continuity test	0-100k?
Phase rotation test	500Hz - 60Hz
Alimentación bateria	1,5V (AAA) X 2 V.
Dimensión aparato	275x51x30 mm.
Peso en gramos	210 gr.
