ARTÍCULO

MIG / MAG SMARTMIG 162 230V-F1 GAS / NO GAS

DESCRIPCIÓN

MIG / MAG 160A single-phase welding apparatus. On wheels, ideal for artisans and individuals. Simple and intuitive adjustment with the "SMART" solution With the Smartmig, the annoying settings are already over. Thanks to the SMART table, the power setting (4 positions) and the thread speed is facilitated. Indicates the ideal adjustment according to the type and diameter of thread used, and the thickness of the sheet to weld.

DATOS TÉCNICOS

Voltage	230V/F1
Fuse	16 Amp.
Open circuit voltage	25.5 - 40 Volt.
Welding current range	30 - 160 AMP.
Servicio EN60974-1 (40°C)	115 @ 20% - 70 @ 60% AMP.
Welding positions	4 nº
Antorcha EURO	SI
Compatible generator	3.6 / 4.5 kW / kva.
Weight net-gross	280 Kg.

Dimensions	555x460x255 mm.
