ARTÍCULO

Dryer TDRY 18 - 230V / 50HZ / F1 * 1800 I / min.conexion 1/2 '

DESCRIPCIÓN (

The new TDRY series, thanks to the high efficiency of the drying module and the limited pressure drop, ensures a sensitive reduction in energy consumption and the cost of the exercise. The main advantage it offers is a limited pressure drop, also under extreme load conditions and an extremely constant dew point (3 $^{\circ}$ C), also by varying the operating conditions. Other models on demand up to 35,000 LTS / minute.

DATOS TÉCNICOS	
Feed	230v / f1
Gas flow of 1.2 bar	1.800
Differential pressure	0.26 m.bar
Connection tool	"1/2" ""
Net / crude weight	240 kg.
Dimensions	325x430x445 mm.
