ARTÍCULO

TDRY6 - 230V / 50HZ / F1 * 600 L / min dryer. Connection 3/8

DESCRIPCIÓN (

The new TDRY series, thanks to the high efficiency of the drying module and the limited pressure drop, ensures a sensitive reduction in energy consumption and the cost of the exercise. The main advantage it offers is a limited pressure drop, also under extreme load conditions and an extremely constant dew point (3 $^{\circ}$ C), also by varying the operating conditions. Other models on demand up to 35,000 LTS / minute.

DATOS TÉCNICOS	
Feed	230V/F1
Gas flow of 1.2 bar	600
Differential pressure	0,04 m.Bar
Connection tool	"3/8"""

Net / crude weight	170 / 202 Kg.
Dimensions	305X360X408 mm.
