ARTÍCULO

Gear Drilling Machine FTX-45-TEC XPRO * 400V / F3 + Jaw

DESCRIPCIÓN

Industrial equipment designed to offer Maximum precision, low noise level and high reliability in continuous machining work. Silent gearbox, which significantly reduces the sound emission during the operation, ideal for long work environments. Automatic spindle progress, optimizing productivity and uniformity in processes. High precision spindle and cane, guaranteeing excellent concentricity and finishing quality. Built-in refrigeration equipment, which allows you to maintain stable work temperatures and prolongs the useful of tools. Tilt table $\pm 90^\circ$, which provides versatility for work at different angles and positions. Changing speeds by levers, fast and comfortable drive, ideal for frequent settings. Electrical Components Siemens, Synonym of quality, safety and durability. Turnover, to easily change the direction of rotation of the spindle. Electromagnetic clutch, which allows a smooth and precise coupling of the spindle without stopping the engine. Manufacture according to EC standards, complying with European safety and quality standards.

ARTÍCULO

Gear Drilling Machine FTX-45-TEC XPRO * 400V / F3 + Jaw

DATOS TÉCNICOS

Alimentación	400V/F3
Potencia	2,2/2.8 - 3/3.75 Kw-Hp
Transmisión	Engranajes
Número de velocidades	12
Velocidad1	42 - 2050 r.p.m.
Capacidad máxima broca	40 mm.
Capacidad de roscado	M28
Distancia portabrocas-columna	360 mm.
Cono morse	MT4
Profundidad taladro	180 mm.
Tamaño ranura en T	2x14 / 2x16 mm.
Distancia husillo-base	1215 mm.
Distancia husillo-mesa	600 mm.
Recorrido máx. mesa de trabajo	560 mm.
Diámetro columna	160 mm.
Dimensión base	575x565 mm.
Dimensión mesa	370x500 mm.
Inclinación mesa	45º
Avance husilo	0.07 / 0.15 / 0.26 / 0.4 mm./r
Equipo refrigeración	SI
Motorized working table	YES
Altura total	- mm.
Peso Neto/Bruto	658/740 kg.
Dimensiones	700x1150x2200 mm.
