ARTÍCULO

TALADRO MAGNETICO ECO.200 S/T *230V/50HZ/F1

DESCRIPCIÓN

Meet the largest and most powerful magnetic drill in our range: the ECO.200S/T. With a maximum drilling capacity of 200 mm (7 7/8") and tapping and countersinking capabilities, this machine allows you to perform truly extreme adjustments on parts and in locations that would normally be impossible. The adjustable speed and RL rotation make this machine perfect for tapping. It also offers the precision needed to match the drill bit to the annular cutter and the material being drilled. Harder materials, such as stainless steel and alloy steels, should be drilled at lower speeds, while softer materials, such as aluminum, can be drilled at higher speeds. The ECO.200S/T features a brushless motor, making it more efficient than brushed motors. Brushless motors are more efficient than brushed motors because they eliminate friction and the energy losses associated with brushes. As a result, brushless motors typically produce more power while consuming less energy. 4-range gearbox speeds, equipped with a digital display and speed control knob.

ARTÍCULO

TALADRO MAGNETICO ECO.200 S/T *230V/50HZ/F1

DATOS TÉCNICOS

Alimentación	230V-F1
Potencia	2,75 - 3,70 Kw-Hp
Annular cutters	12 - 200 Ø mm.
Twist drill	1 - 50 Ø mm.
Countersinking	HASTA 205 Ø mm.
Travel max.	255 mm.
Threading	M3 - M48
Magnet	350X125X66 mm.
Velocidad1	(I) 29-75, (2) 46-120, (III) 110-285, (IV) 174-452 r.p.m.
Cono morse	"MT4 1 1/4" (31,75)"
Magnetic retention capacity	36088 Nm.
Peso Neto/Bruto	59 / 60 Kg.
