ARTÍCULO

TIG / MMA Inverter FTX-175-TIG DC 230V / F1

DESCRIPCIÓN:

The FTX 175 TIG DC is a welding equipment with direct current inverter technology for iron welding, stainless steel, casting, copper and brass. The welding machine is suitable for all working conditions thanks to its high degree of protection against moisture and dust.

DATOS TÉCNICOS	
Feed	230V/F1
Fuse	16 Amp.
Vacuum tension	65 Volt.
Welding	TIG - MMA
Welding regulation	10 - 175 Amp.
EN60974-1 Service (40oC)	175@ 60% Amp.
Compatible generator	3,6 / 4,5 KW/KVA.
Net / crude weight	9 Kg.
Dimensions	380x160x280 mm.
